STAT

SUBJECT: Briefing Request

1. Admiral Bill Mott, Editor of the American Bar Association's Law and National Security Subcommittee Intelligence Report called today to ask for a briefing on South Africa. The details are as follows:

-- in the near future, Mott along with four officers of the Synthetic Fuels Corporation will be visiting South Africa to look into that country's synthetic fuels production; other members of the entourage are: Ed Nobel, Chairman of the ABA's Council on Economics and National Security; Vick Schrader, President of the Synthetic Fuels Corporation; Lyn Axelrod, Synthetic Fuels Corporation Technician; and Ray Kline, former Agency employee now at Georgetown University;

-- Mott specifically asked that [REDACTED] of the Agency do the briefing; STAT

-- Specifically, the briefing requested is to cover, in an unclassified manner, South Africa in general as well as any problems the group might anticipate in terms of their visit to that country.

2. Please advise as to whether or not we can accommodate. It would be in our interest to do the briefing given the relationship we have with Mott and the ABA. While Admiral Mott did not specify a specific time, I would appreciate a response as soon as possible as to whether or not we can fulfill the request. At that time, I will arrange the details of time and place.

MEMORANDUM FOR: Deputy Director of Central Intelligence
FROM : SA/DCI/IA
SUBJECT : Congressional Leadership Briefings

1. After much hauling and pulling today, we have a revised schedule for your appearances before the Congressional Leadership to testify on El Salvador. Senior Members from the House are scheduled to meet at 11:30 tomorrow in S-407. The senior Members of the Senate are scheduled to meet at 1400 on Friday.

2. At this point, only you are scheduled to appear. We have not been able to ask the Director what his plans will be. The operative question is: Do you wish to have the whole troop accompany you? I believe I know your response, but I just want to confirm.
